

## Alpha Prema UK Limited

### Statement by the directors in performance of their statutory duties in accordance with section 172(1) of the Companies Act 2006 for the year ended 31 December 2021

The company's directors consider, both individually and together, that they have acted in the way which they consider, in good faith, would be most likely to promote the success of the company for the benefit of its sole shareholder, Delta 3 (UK) Limited. They have also considered the company's other stakeholders and matters set out in section 172(1)(a) to (f) of the Companies Act 2006 in the decisions taken during the financial year ended 31 December 2021.

#### *Long term strategy and decision making*

The company is an intermediate holding company within a Group (Delta Topco Limited and its subsidiaries, collectively referred to herein as "Formula 1" or the "Group") whose principal business activity is the exploitation of the commercial rights to the FIA Formula One World Championship® ("the Championship"). The company plays no direct role in that activity, and its only ongoing material transactions relate to interest charges in respect of loan receivables and payables with other Group companies. As a result COVID-19 has had no direct impact on the company.

The directors of the company recognise the importance of taking decisions for the long term and analysing the likely consequence of each key decision they make. In taking decisions the directors also seek to apply and maintain the highest standards of business conduct, and given the company has a single shareholder, the directors are not at risk of acting unfairly between its members when making them.

As noted, the company is part of the Group and with all companies within the Group wholly owned, long term strategy is determined at the Group level with decisions and activities then delegated to its individual companies. Whilst the main objectives of the company and certain strategic decisions will be set/taken at a Group level, consideration does still need to be given to the individual interests of the company. Given that in addition to being directors of the company, Mr Llowarch and Ms Woodward Hill are also members of the Group's executive management, being respectively its Chief Financial Officer and its Chief Legal Officer and Chief Administration Officer, they are able to consider any decisions to be taken both in the context of the interests of the wider Group and its detailed strategy, and in the interests of the company.

The Group's strategy which continues to be published and is available on the Group's corporate website (<https://corp.formula1.com>) sets out to deliver long-term value to both its ultimate owner Liberty Media Corporation ("Liberty"), and to other stakeholders including the company. The strategy also promotes the Group's other aims, which include to grow the sport and its fan base, and to ensure the Championship's long-term sustainability, and continues to be built around six strategic priorities:

- Race: Increase competitiveness and unpredictability on track;
- Engage: Produce world-class spectacles for fans on and off track;
- Perform: Drive value for our stakeholders;
- Sustain: Deliver sustainable and efficient operations;
- Collaborate: Create win-win relationships with our partners; and
- Empower: Build an engaged, high-performing organisation.

Whilst the coronavirus pandemic continued to cause operational and commercial disruption during 2021, the Group's broader long term strategy and ambitions remain unchanged.

The onset of the coronavirus pandemic in 2020 severely disrupted the Group's operations and required significant changes to its business operations and decision making processes to operate effectively and manage risk in a challenging and rapidly evolving environment across the year. The Group immediately convened a committee constituted of members of its executive and senior management, including Mr Llowarch and Ms Woodward Hill, to take responsibility for overseeing the Group's planning, its operational strategy and the execution of its activities in response to the crisis, including any issues arising for the company, and that committee has subsequently continued to meet regularly throughout 2020, 2021 and into 2022. During 2021 frequent challenges continued to arise from the fast changing rules and restrictions in the different territories in which we operated, and we are prepared if we face any further issues into the 2022 Championship season, but the procedures adopted, and the oversight maintained throughout by executive and senior management, has allowed the Group to continue to navigate these challenges effectively.

Although the impact of the coronavirus pandemic on the Championship calendar was less severe in 2021 than in 2020 there was still significant disruption and restrictions to contend with. Of the 23 races originally scheduled for 2021 four were cancelled but, with the continued ability to operate with considerable strategic flexibility, the Group was able to secure agreements to schedule three races that were not on the original calendar therefore ensuring a 22 race calendar was delivered. Changes introduced in 2020 to reduce travelling personnel and equipment numbers and volumes, were continued, and the accelerated strategy to perform more TV production and other technical services over race weekends away from the track at

the Group's offices in Biggin Hill in the UK was developed further. Travelling staff continued to be supported by a comprehensive and regular programme of virus testing throughout 2021, as were those required to be on site to provide services from Biggin Hill.

Following the successful completion of the 2021 season, the company and the Group's attention is now focused on plans for the 2022 Championship and its events. Current expectations are that it is possible that early season events may continue to face some disruption from the coronavirus pandemic, and some of the operational measures used through 2020 and 2021 may still be required. As noted, the Group's planning and response to the coronavirus pandemic continues to be overseen by the COVID-19 response committee, which is expected to continue to operate until such time as the business is able to return to more normal operation. The directors remain confident that the company and the Group, together with our other stakeholders, will continue to be able to adapt successfully to the ongoing challenges of the coronavirus pandemic, with the aim of completing a full Championship calendar and fully normalising the scope of commercial activities as, and when, conditions allow.

#### ***Maintaining a reputation for high standards of business conduct***

The Group seeks to maintain its high business standards, ensuring that wherever its subsidiaries are operating in the world, their business is conducted with integrity, and in compliance with the law and the Formula 1 Code of Conduct. The code, which includes the Group's anti-bribery and corruption policy, continues to be adopted by each Formula 1 subsidiary, including the company, and applies to every officer and employee of the Group.

In addition to the requirements of its subsidiaries, officers and employees, the Group also expects third parties who perform services for Formula 1 to apply or adopt internal policies that are consistent with this Code. In that regard the Group's compliance team conduct Know Your Customer ("KYC") checks and other due diligence work on any potential partners the company considers doing business with.

As the subsidiary of a US public company, Liberty, the company and the wider Group are also required to comply with additional requirements, including the Foreign Account Tax Compliance Act (FATCA) and certain aspects of the 2002 Sarbanes-Oxley Act ("SOX"). SOX requires the Group to establish and maintain robust internal control structures and procedures for financial reporting, to report on their effectiveness, and have that effectiveness tested and assessed annually by its external auditor. The conclusions of the work on SOX for the 2021 year are that the Group continues to operate a robust and effective control environment.

#### ***Engagement with key stakeholders***

In addition to the company's parent, and other fellow subsidiary companies of Formula 1, the directors consider the company's key stakeholders to be Liberty and the Group's external lenders.

The directors, together with the Group's other senior management, regularly discuss material strategic and operational matters with senior Liberty executives, some of whom sit on the boards of certain Group companies, including Delta Topco Limited and this process continued throughout 2021. As a US listed company, Liberty has significant public reporting obligations, and given Formula 1 is a material subsidiary, the Group is required to fulfil significant reporting requirements to Liberty on a quarterly and annual basis. These include the requirement for the Group to be compliant with, and report to it on, certain SOX requirements as discussed above. The Group also continues to assist Liberty with investor relations activities, contributing to Liberty's quarterly earnings calls and annual investor day.

There are a number of trading relationships between the subsidiary companies of Formula 1 including various intra-group loans and other trading balances. Formula 1's subsidiaries work together to pursue and deliver the Group's strategy and targets and ensure that any intra-group arrangements are in the interests of both parties. This requires that the terms of any intra-group loan agreements and trading balances are agreed and monitored, and that any required support is provided. These activities continued as per normal during 2021.

The company, together with several other Group companies, is party to and guarantees the Group's external borrowing arrangements. The Group provides quarterly management reports and compliance certificates to external lenders, holds periodic update calls and liaises on a regular basis with the agent who oversees the facilities on behalf of lenders. The Group also meets on a regular basis with the rating agencies to update them on its progress and expectations for the future. During 2021 various discussions were held with the rating agencies to keep them informed of developments and to provide updates on the impact of the coronavirus pandemic on the business. A waiver from reporting against the Group's leverage covenant was secured in 2020 to run until March 2022 as the Group proactively looked to manage and mitigate risks arising from COVID-19.

***Other stakeholder considerations***

The directors recognise the importance of certain other stakeholders in the success of both the company and the Group as a whole, including the Group's employees, of which the company has none of its own, the Championship's fans, the Fédération Internationale de l'Automobile ("FIA") and the competing teams, and other commercial partners - the race promoters, broadcasters and sponsors of the Championship. The Group's wider engagement with such stakeholders is discussed in the financial statements of the Group companies primarily responsible for overseeing the relevant relationships, and the section 172 (1) statements required of any of its subsidiaries are published on the Group's corporate website.

***The community and the environment***

In 2021 Formula 1 continued development and progression of the We Race As One initiative ("WRAO"), which was announced during 2020 to raise awareness of the commitment made by many around the globe during the pandemic as well as raising awareness of wider societal issues. At the start of 2021 we made WRAO the official Environment, Social and Corporate Governance (ESG) platform for the Championship. This focuses specifically on three pillars: Sustainability, Diversity & Inclusion and Community. Whilst the company, given the limited nature of its activities, has no direct role to play in the related initiatives, the directors fully subscribe to the aims of the plan, and the action being taken. Details are available on the Group's corporate website, and in the section 172 (1) statements published thereon by other Formula 1 subsidiary companies, and the company will pursue any actions required of it to contribute to the successful delivery of the Group's environmental and social initiatives and targets.

Approved by the Board on 16 March 2022
